About Wynne

Wynne is a leading software company that provides Enterprise Resource Planning (ERP) software to top rental and construction companies worldwide. Established in 1989, Wynne recognized the need for a truly complete ERP and committed itself to developing software that would meet the rapidly evolving and growing needs of the equipment industry. Today, Wynne is in more than 50 countries, serving over 4,600 locations.

Building the Ultimate Software Experience

Wynne developed software with the goal to create an experience that's unforgettable for our clients, and their clients in turn. Wynne's completely robust ERP solution makes it easy to configure a system that meets your business needs, while incorporating the latest in technology.

In addition to developing turnkey software suites, we provide both on-site and help desk assistance. Our knowledgeable Customer Care staff is available for support 24 hours a day, 7 days a week.

Some of the largest rental and construction companies worldwide trust our innovative and reliable software to keep their businesses running smoothly.

This solid history enables Wynne to truly understand the industry and develop timely products that exceed clients' expectations and keep them on top of industry trends. Our key relationships with innovative business partners deliver the latest in technology for our clients, such as telematics and mobile solutions. These sophisticated solutions give your company the right tools--at the right time--to stay on top of your industry.

Wynne team is comprised of many former industry professionals who have served out in the field or in management. This long history and familiarity with how the industry works has served to better understand our clients' struggles, and how we can better develop our solutions to overcome them.
