FOR IMMEDIATE RELEASE

Wynne Systems Named to CIOReview's 20 Most Promising Construction Tech Solution Providers 2016

December 1st, 2016

FREMONT, CA— Wynne Systems, a premier provider of equipment rental software and construction management software for companies around the world, announced today that it is has been recognized as one among the top 20 Construction Tech Solution Provider of 2016 by CIOReview.

 "It's a great honor to select Wynne Systems as one of the 20 Most Promising Construction Tech Solution Providers 2016," said Jeevan George, Managing Editor of CIOReview. "Wynne Systems uses the latest technologies to give clients the competitive edge that will increase revenue, decrease costs and grow their business."

Wynne Systems' Construction Equipment Management Software is designed to manage the equipment at all job sites of a company. It also tracks large or small equipments, manages operators, keeps up to date on maintenance and security, and control costs. Wynne Systems also provides ERP software which is designed specifically for rental equipment companies. From asset management to reporting financials, this software can help to lower overhead, and increase efficiencies and revenue.
